

# STINE® CORN PRODUCT DATA

## Stine® 9444-22 BRAND

Hybrid Corn (98 day / GDD 2450)

### FEATURES/BENEFITS

- 98–100 days relative maturity (2450 GDU)
- Best-in-class below-ground insect protection
- Very good tar spot tolerance
- Demonstrated high yield potential on highly productive soils
- Best-in-class above-ground insect control
- Glyphosate and glufosinate tolerant
- Taller plant type works well in all row widths
- Fungicide recommended for corn-on-corn operations

### DISEASE RESISTANCE

<b>Gray Leaf Spot</b>	9	<b>Goss' Wilt</b>	8
<b>Southern Leaf Blight</b>	-	<b>Anthraxnose</b>	-
<b>Northern Leaf Blight</b>	7	<b>Common Rust</b>	7
<b>Eye Spot</b>	9		

### AGRONOMICS

<b>Stalk Rating</b>	9	<b>Drydown</b>	8
<b>Root Rating</b>	9	<b>Test Weight</b>	8
<b>Early Plant Vigor</b>	-
