

CORN PRODUCT DATA

STINE® 9660-G BRAND

Relative Maturity Range		106 - 108
Harvest Population		GDU
Wide Row	Narrow Row	2675
100%	110%	
Glyphosate Tolerant		Glufosinate Tolerant
Yes		No

Stine 9660-G brand corn is a top-yield contender with a semi-flex ear. Standability and agronomics make this an excellent choice for refuge or low insect pressure acres. Plant as a full-season option on any acres as it is widely adapted to soil types.

- Consistent high yields coupled with excellent agronomics
- Very good root structure, plant health and intactness
- Yielded 107.5% of trial average in 2-year average Stine Mid Elite Trials
- Limited supply

DISEASE RESISTANCE

Gray Leaf Spot	-	Goss' Wilt	-
Southern Leaf Blight	-	Anthraxnose	-
Northern Leaf Blight	-	Common Rust	-
Eye Spot	-		

PLANTING RECOMMENDATIONS
