

# CORN PRODUCT DATA

## STINE® 9818-32 BRAND

Stine 9818-32 brand corn is a full-season option with best-in-class above- and below-ground insect protection. It offers excellent agronomics and dual herbicide modes of action for flexibility in weed control. 9818-32 is broadly adaptive across yield environments with great north to south adaptability.

- Taller plant type works well in all row widths
- Excellent agronomic disease tolerance, including leaf disease protection
