

CORN PRODUCT DATA

STINE® 9104-20 BRAND

Stine 9104-20 brand corn is broadly adaptive across yield environments in this maturity zone and north. It performs east to west and boasts two modes of action against above-ground pests that protect against serious crop damage. 9104-20 is agronomically strong, with a semi-flex ear that produces excellent test weight. It has strong top-end yield with improved Goss's wilt tolerance and above-average disease tolerance, including against tar spot. For optimum performance, plant on loam-type soils.
