

# CORN PRODUCT DATA

## STINE® **NEW** 9461-32 BRAND

Stine 9461-32 brand corn is a broadly adaptive corn line suited for a broad geographic adaptation. It has excellent yield performance, and its agronomics help combat diseases, such as tar spot, making it a great choice in this maturity zone and as an early line for southern movement. This dual-purpose line is a taller plant type with excellent roots and stalks and superior silage characteristics.
