Stine® 9808E-G brand corn is a proven winner that is a perfect fit as a refuge option or a stand-alone for the acres not needing insect protection. This line has great northern movement with fast dry down accompanied with excellent root structure and stalks. It offers excellent disease protection, especially against leaf diseases, and it works well in all row widths and performs best at higher planting populations. It has proven high-yield potential on highly productive soils.
