PREMIUM GENETICS

Stine MX604-0 brand corn is one of our latest conventional options featuring Stine conventional genetics
for this maturity zone and north.
It's a medium plant type with medium-tall ear placement that works well in all row widths and excels at increased planting populations. It features an industry-leading fungicide and insecticide treatment and yielded a 103% 2-year average in Stine's Elite Yield Trials. Maximize yield potential with some additional sulfur and midseason nitrogen if needed.
