## STINE® 11EH06 BRAND

Stine 11EH06 brand delivers tremendous upside in yield potential paired with iron deficiency chlorosis and Sclerotinia white mold performance. 11EH06 is medium to moderately tall yet maintains standability. It's a good choice for nearly any soil type. For maximum yield potential, pair it with a Phytophthora root rot seed treatment, and 11EH06 brand will deliver big results.
