

# SOYBEAN PRODUCT DATA

## STINE® 12EG32 BRAND

Stine 12EG32 brand is a high-performing soybean that does best when planted in wide-row, moderate-population management systems. 12EG32 is well suited for highly productive, poorly drained, heavy soils due to the presence of Rps3a Phytophthora root rot resistance. For best results, plant in wider rows to open the canopy if Sclerotinia white mold is a concern.
