

SOYBEAN PRODUCT DATA

STINE® **NEW** 28EJ82 BRAND

Stine 28EJ82 brand comes from a strong lineage brought forward with extremely high yields averaging 110.3% of yield trend. This 2.8-maturity soybean offers very good standability and is suitable for narrow rows and higher populations. It really thrives in the mid- to late planting window with season-long plant health leading to high yields. If planting early, 28EJ82 responds well when paired with a seed treatment.
