and scoring based on past performance; results may vary. Always read and follow label directions.		

PREMIUM END

Stine 37N32 brand has demonstrated wide adaptability across both highand low-productivity yield environments thanks in part to its growthy, goodlooking plant structure. 37N32 features protection against sudden death syndrome and iron deficiency chlorosis, as well as Rps1k Phytophthora root rot resistance for help on highly productive, but poorly drained, soils.
