STINE® 60EE21 BRAND

A medium to moderately short plant type, Stine 60EE21 has a strong lineage that provides consistent yield performance at 107% trend across the heavy ground across the south. 60EE21 maintains height in heavy soil and has top-level tolerance to Phytophthora root rot. 60EE21 is a salt excluder that provides quality performance in high salt-prone ground. 60EE21 also has STS tolerance which provides more selection for herbicide applications.
