

CORN PRODUCT DATA

STINE® MX445-G BRAND

Stine MX445-G brand corn is proven to be high-yielding and is designed to perform best at increased planting populations as a full-season option. It features a medium plant type with medium ear placement and excels in all row widths. Boasting an agronomically strong root structure and stalks, it is a must-plant on every farming operation. MX445-G also offers very good leaf disease protection and features an industry-leading fungicide and insecticide treatment. It yielded 103% in 2025, with four-year data near 108% in Stine's Early-Mid Elite Yield Trials.
