

CORN PRODUCT DATA

STINE® NEW MX600-G BRAND

Stine MX600-G brand corn is our new fullest-season glyphosate-tolerant option in the MX lineup. It features an industry-leading fungicide and insecticide treatment for early-season protection. MX600-G is an excellent choice as a stand-alone or refuge line for traited acres. To maximize yield potential, plant on loam-type soils and increase populations by 5%–10%.

Relative Maturity Range 109 - 111		
Harvest Population		GDU
Wide Row	Narrow Row	2730
105%	110%	
Glyphosate Tolerant		Glufosinate Tolerant
Yes		No

DISEASE RESISTANCE

Gray Leaf Spot	-	Goss' Wilt	-
Southern Leaf Blight	-	Anthrachnose	-
Northern Leaf Blight	-	Common Rust	-
Eye Spot	-		

PLANTING RECOMMENDATIONS

Sand	R	Wide Rows	R
Loam	HR	Narrow Rows	R
Clay	R		

AGRONOMICS

Stalk Rating	8	Corn-on-Corn	-
