STINE® 04EJ02 BRAND

Stine 04EJ02 brand is a semi-branching, workhorse-style soybean that combines high-yield potential with solid disease protection. Plant it in 20-inch or wider row configurations in moderate- to high-population environments across soil types to see its elevated performance. 04EJ02 is strong against sudden death syndrome and does well against iron deficiency chlorosis and Sclerotinia white mold pressure.
