

SOYBEAN PRODUCT DATA

STINE® **NEW** 05EK12 BRAND

Stine 05EK12 brand has strong tolerance to Sclerotinia white mold, paired with very good standability within its inline phenotype. It is a solid salt excluder line that travels well across soil types and can be put in narrow-row, high-population environments. If planting in poorly drained soils, apply a treatment and watch out for carbonate levels within the iron deficiency chlorosis world.
