

SOYBEAN PRODUCT DATA

STINE® 18EJ32 BRAND

Stine 18EJ32 brand is a highly versatile soybean built for high-productivity acres, just like its relative 28EH32. Rps1k Phytophthora root rot resistance and very good standability allow you to push 18EJ32 in narrow rows and higher populations, even in poorly drained soils. It has strong tolerance to sudden death syndrome and good tolerance to Sclerotinia white mold. For best results, keep 18EJ32 on heavier, less-calcareous soils.
