

SOYBEAN PRODUCT DATA

STINE® 25EJ92 BRAND

Stine 25EJ92 brand is built for yield on tough acres. It is a unique medium-height, streamlined soybean with Peking SCN resistance and good standability in 15-inch rows. 25EJ92 also features STS tolerance and good tolerance to Sclerotinia white mold, iron deficiency chlorosis and sudden death syndrome. If planting on poorly drained soils, consider a seed treatment to protect against rots. Plant 25EJ92 at moderate populations and let it bush out as much as possible to ensure easy combinability at harvest.
