

SOYBEAN PRODUCT DATA

STINE® 28EJ82 BRAND

Stine 28EJ82 brand comes from a strong lineage brought forward with extremely high yields. This 2.8-maturity soybean offers good standability and is suitable for narrow rows and higher populations. It thrives in the mid- to late planting window, with season-long plant health supporting high yields. If planting early, 28EJ82 responds well when paired with a seed treatment.
