STINE® 28M32 BRAND

Maturity 28	
SCN Resistant	Brown Stem Rot Susceptible

Stine 28M32 brand is the most consistent, well-rounded conventional soybean in Stine's lineup. It adapts to nearly any farming strategy but performs especially well in moderate-population, narrow-row environments. Strong ratings against sudden death syndrome allow for early planting, and Rps1c Phytophthora root rot resistance provides additional protection on poorly drained soils.
