

SOYBEAN PRODUCT DATA

STINE® **NEW** 29EK20 BRAND

Deriving from the legendary 28M32 conventional line, Stine 29EK20 brand comes forward with its high-yield trend of 109.8% and solid agronomic traits to support its success. Plant it in 20-inch or wider rows at moderate to low populations to encourage branching. 29EK20 excels on highly productive, moderate- to well-drained soils and can be planted early due to its ability to excel against sudden death syndrome and Sclerotinia white mold. If planting in poorly drained soils, a seed treatment is recommended.

Maturity 29	
SCN Resistant	Brown Stem Rot Susceptible
Rps Gene S	Height Medium

DISEASE RESISTANCE

Phytophthora	Very Good
IDC/Salt	Average/Not Recommended
SDS	Good
SWM	Strong
Stem Canker	Resistant
Frogeye Leafspot	Susceptible
Root Knot Nematode	Susceptible

AGRONOMICS

Emergence	Very Good
Standability	Average/Good
Flower	White
Pubescence	Tawny
Hilum	Brown
Chloride	Includer
Sulfonylurea Tolerant	-
