

SOYBEAN PRODUCT DATA

STINE® 30EH32 BRAND

Stine 30EH32 brand is a medium- to moderately tall, aggressive, high-yielding soybean with very good standability. It moves south very well and performs across a wide range of row spacings. For best results, plant 30EH32 at higher populations to maximize yield potential, though it can also be a great option for marginal ground. 30EH32 works great on sandy, well-drained soils with limited white mold potential.
