

SOYBEAN PRODUCT DATA

STINE® 31EF02 BRAND

Stine 31EF02 brand is a bushy-type soybean that maintains its performance potential in both highly productive and marginal ground. It offers tolerance to sudden death syndrome, Sclerotinia white mold and iron deficiency chlorosis, allowing for earlier planting. For best results, when planting early on productive ground, a seed treatment is recommended for additional protection against Phytophthora root rot.
