STINE® **NEW** 31T20 BRAND

Maturity 31	
SCN Resistant	Brown Stem Rot -
Rps Gene 1c	Height Moderately Tall

Stine 31T20 brand brings a staggering 107% trend to the early 31 lineup. It offers a unique combination of traits and tolerances that promotes adaptability across operations and environments. Good standability supports 15- to 30-inch options and pairs with good 1c Phytophthora root rot resistance for poorly drained, marginal ground. 31T20 should be placed in well- or poorly drained soils and performs best on marginal ground to prevent excessive plant height.
