STINE® 32EJ92 BRAND

Stine 32EJ92 brand is an STS-tolerant line that features *Rps1k* Phytophthora root rot resistance for planting in poorly drained soils and delivers good, consistent yield performance. It also offers tolerance to iron deficiency chlorosis, sudden death syndrome and Sclerotinia white mold. These characteristics, along with its strong lineage to Stine 30EH23 and 36EH29, make 32EJ92 a very desirable option.
