STINE® **NEW** 35EK92 BRAND

Stine 35EK92 brand brings a unique set of traits in the mid-group 3 maturity. This medium-stature, moderately branching line features root knot nematode resistance and is a salt excluder. These traits make 35EK92 ideal for rough, marginal ground with poorly drained soils and moderate to low planting populations. It has strong tolerance to sudden death syndrome and Sclerotinia white mold, making it a great early-plant option with good health throughout the year.
