STINE® 36EH29 BRAND

Stine 36EH29 brand, through multiyear, multilocation data, has proven itself thanks to strong sudden death syndrome tolerance, Rps1k Phytophthora root rot resistance and good standability. This attractive, branching plant type raises the bar on reliability and yield in this maturity range. 36EH29 also has STS tolerance, providing additional herbicide options to combat aggressive weed pressure. Plant it in moderate- to wide-row strategies, and 36EH29 will bush out and yield for anyone who wants to pick it.
