STINE® **NEW** 38EK02 BRAND

Stine 38EK02 brand brings staggering performance with a combination of yield and traits to the Stine lineup. It is a medium-height, moderately bushy plant type with frogeye leaf spot resistance and salt excluder performance. This line performs well on any soil type in 20-inch or wider row strategies, providing good standability and combinability. 38EK02 also has strong tolerance to sudden death syndrome for early planting and carries the 1a Phytophthora root rot gene to thrive in poorly drained soils.
