## STINE® **NEW** 38EK29 BRAND

Stine 38EK29 brand is a sister to 37EJ20, providing stable, consistent performance across soil types while maintaining its height under stress. 38EK29 can be planted in narrow-row, high-population environments and still offer very good standability. Its STS tolerance also supports effective weed control and good canopy coverage. Plant 38EK29 in moderate- to well-drained soils to avoid *Phytophthora* root rot potential.
