STINE® 60EE21 BRAND

EXCLUSIVE LINE FOR 2027: A moderately short to medium plant type, Stine 60EE21 brand has a strong lineage that provides consistent yield performance at 110.3% of yield trend across the heavy ground in the South. It maintains height in heavy soils and has top-level tolerance to Phytophthora root rot. 60EE21 is a salt excluder that provides quality performance in high-salt-prone ground. It also has STS tolerance, giving more options for herbicide applications.
